

Information on entry from a high-risk area

Persons who enter from a high-risk area and live in the district of Heilbronn are required to register immediately after re-entry in Germany with the Heilbronn Administrative Authority and to go into quarantine directly at home or in another suitable accommodation. The quarantine must be carried out for a period of 10 days. During this period, no visitor may be received, who is not a member of your own household.

You can find out which countries belong to the high-risk areas at the following link:

https://www.rki.de/DE/Content/InfAZ/N/Neuartiges_Coronavirus/Risikogebiete_neu.html

You do not have to go into quarantine, for example, if you belong to a certain profession or if you are visiting your spouse who does not live in the same household. For more information and exceptions, please refer to the Coronavirus Ordinance Entry Quarantine of the Baden-Württemberg Ministry of Social Affairs: <https://www.baden-wuerttemberg.de/de/service/aktuelle-infos-zu-corona/verordnung-fuer-ein-und-rueckreisende/>.

Important: You must obligatorily contact your competent public order office immediately following entry from a high-risk area.

If you would like to prematurely end the specified quarantine period, you can arrange to have a coronavirus test from the **fifth day** of being placed under quarantine and submit it to the Administrative Authority. This medical certificate must meet the requirements of the Robert Koch Institute. The test

- must not be carried out until the fifth day **after** entry into Germany at the earliest,
- must make reference to coronavirus testing (molecular biological testing or antigen test), **and**
- must confirm that there is no evidence of infection with the coronavirus.

Further information on the test can be found on the homepage of the Robert Koch Institute:
